DETAILED ACTION

This Office Action is response to an amendment dated 2/7/2005, and an RCE dated 3/7/2005, each from the applicant.

Claims 1 and 9 were amended.

Claims 1-13 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/7/2005 has been entered.

Response to Amendment

2. In view of the applicant's amendment to Claims 1 and 9, the examiner withdraws the rejection of said claims under 35 USC 112 second paragraph.

3. As per the applicant's argument in re: indention of steps in a claim. The examiner acknowledges the applicant's right to refuse indenting steps in a claim as requested in the first Office Action of 3/24/2004 (see 37 CFR 1.75(i) and MPEP 608.01(m); "each element or step should be separated by a line indentation").

Art Unit: 2133

4. Applicant's arguments, see amendment dated 2/7/2005, with respect to independent Claims 1 and 9, have been fully considered and are persuasive. The rejection under 35 USC 103(a) of independent Claims 1 and 9, and dependent Claims 2-8 and 10-13 has been withdrawn.

EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ralph Locher on 5/2/2005.

As per Claim 5:

Line 4 of the claim is changed as follows: "items produced from the predetermined test pattern ~~data item~~ and writing to".

As per Claim 7:

Lines 4 and 5 are changed as follows: "storing the data items produced from the predetermined test pattern ~~data item~~ and writing to the data memory, and a second buffer store".

Allowable Subject Matter

Art Unit: 2133

1. Claims 1-13 are allowed. The following is an examiner's statement of reasons for allowance: The reference art of Lepejian et al. and Kanehira et al. teach a circuit and method for testing a data memory comprising a processing unit for converting and expanding a test pattern, writing into and reading out of a memory, a tester designating to the processing unit how it will convert the pattern, reading the converted and expanded test pattern from the memory, de-converting the data read out of the memory, and determining if the data memory is faulty based on a comparison. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention or the method steps of the application.

Specifically, as per independent Claims 1 and 9, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into these claims, namely: the comparison compares the de-converted test data items with each other, and with the original test pattern. Consequently, Claims 1 and 9 are allowed over the prior arts of record. Claims 2-8 and 10-13 are directly or indirectly dependent upon Claims 1 and 9, and therefore are also allowable over the prior arts of record. Therefore claims, 1-13 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
